JIBIN JOHNSON

BI Administrator & Data Analytics Specialist

jibin309johnson@gmail.com | +91 9745194639 | Kerala, India | linkedin.com/in/jibin-309johnson

PROFESSIONAL SUMMARY

Results-driven BI Administrator and Data Analytics Specialist with **4+ years of experience** administering BI platforms, managing data pipelines, and delivering enterprise reporting solutions. Proven expertise in **Power BI administration** (DAX, Power Query, Data Modelling, workspace management, gateway configuration, and scheduled refresh monitoring). Hands-on experience with **SQL Server (SSRS/MSBI)**, ETL development, data warehousing, and ERP system integration. Strong track record automating reporting workflows, managing user roles and permissions, and collaborating cross-functionally in Agile/Scrum environments. Master's degree in Data Science with a solid foundation in cloud platforms and BI best practices.

CORE COMPETENCIES

✔ BI Platform Administration	✔ Power BI (DAX, Power Query, Data Modelling)	✔ SQL Server / SSRS / MSBI
✔ Gateway & Scheduled Refresh Mgmt	✔ User Access, Roles & Permissions	✔ Dashboard & KPI Development
✔ ETL Development & Data Warehousing	✔ Data Source Monitoring & Validation	✔ System Configuration & Documentation
✔ Azure / Cloud Platform Exposure	✔ Python (Pandas, NumPy, Matplotlib)	✔ Agile / Scrum Methodologies

PROFESSIONAL EXPERIENCE

System Engineer / BI Administrator & Data Reporting Specialist

Feb 2024 – Present

ICON Global Consultant Engineers Limited LLC

- Administered and configured Power BI workspaces, managing user access, roles, and permissions for enterprise-wide BI deployments; ensured workspace governance and security compliance.
- Monitored Power BI gateways and scheduled data refreshes, proactively resolving refresh failures and performance bottlenecks — achieving 99%+ dashboard availability.
- Provided Tier-1/Tier-2 support to business users for dashboard access issues, data refresh troubleshooting, and report configuration queries.
- Designed and deployed Power BI dashboards and reports (DAX, Power Query, Data Modelling) for KPI tracking and executive reporting — reducing report generation time by 40%.
- Engineered end-to-end ETL workflows and data warehousing pipelines for data extraction, transformation, and loading — reducing data inconsistencies by 30%.
- Maintained data accuracy across ERP systems (Deltek Vantagepoint) using SQL and internal tools, reducing reporting discrepancies by 20%.
- Automated reporting workflows using SharePoint Online and Nintex, cutting manual reporting effort by 35%.
- Maintained documentation for BI system configurations, ETL workflows, data models, and operational processes.
- Collaborated with Data Engineers and Analysts to ensure availability, accuracy, and reliability of data sources feeding BI platforms.

Tools & Technologies: SQL, Python, Power BI, Excel, SharePoint Online, Deltek Vantagepoint (ERP), Nintex Workflows, Gulf HR

Assistant System Engineer – Data & BI Systems Support *Sep 2019 – Sep 2021*

Tata Consultancy Services Limited | Project: GOSI, Saudi Arabia

- Supported administration and monitoring of production databases and BI reporting environments, maintaining large-scale customer datasets with advanced SQL.
- Validated and interpreted client queries against data systems using SQL and internal tools, improving data integrity by 25% and supporting accurate BI reporting.
- Developed and optimised complex SQL queries and ETL workflows for data extraction and reporting (SSRS/MSBI), improving processing speed by 30%.
- Generated analytical and operational reports for performance monitoring and incident analysis using Excel and reporting tools, reducing issue resolution time by 20%.
- Supported system integration by validating REST and SOAP API data exchanges, improving cross-system data consistency by 15%.
- Participated in version upgrades, system testing, and performance monitoring initiatives in Agile/Scrum environments.
- Assisted in maintaining documentation for system configurations, data workflows, and BI processes.

Tools & Technologies: SQL, Microsoft SQL Server, SSRS, Python, Excel, ETL Processes, API Testing, Katalon Studio, SonarQube, Agile/Scrum

EDUCATION

Master of Science – Data Science	University of Greenwich, UK	*Sep 2021 – Sep 2023*
Bachelor of Computer Application (BCA)	University of Calicut, India	*May 2016 – Apr 2019*

KEY PROJECTS

Temporal Database Solution – Sports Club Record Management System (May 2022 – Sep 2022)

- Designed a temporal database in Oracle SQL using AS OF period queries, row versioning, and effective/expiry date logic to support time-series analysis, trend identification, and KPI reporting — directly aligned with BI data warehousing requirements.
- Optimised SQL queries using joins, aggregations, and window functions to improve data retrieval performance for analytics dashboards.

TECHNICAL SKILLS

BI & Reporting Tools	Power BI (DAX, Power Query, Data Modelling, Gateway Admin), SSRS, MSBI, MIS Reporting
Database & Querying	SQL (Advanced), Microsoft SQL Server, MySQL, Oracle SQL, ETL, Data Warehousing
Programming	Python (Pandas, NumPy, Matplotlib), R
Productivity & Automation	Excel (Pivot Tables, VLOOKUP/MATCH), SharePoint Online, Nintex Workflows
Cloud & Integration	Azure (exposure), REST/SOAP APIs, ERP Integration (Deltek Vantagepoint)
Methodologies & Tools	Agile/Scrum, SonarQube, Katalon Studio, Git, Documentation & Process Management
